

Learn Bayes

Workshop

Two days, 26–27 November 2026

Widerströmska huset, ARC conference room (floor 10)

Bayesian workflow, hands-on exercises

Thursday

Simulation and priors

26 Nov, 9:00–12:00 h

- How to simulate data
- How to specify priors
- Gain confidence in models

Parameter estimation

26 Nov, 13:00–16:00 h

- Fit Bayesian models
- Interpret estimates
- Work with posterior samples

Friday

Model validation

27 Nov, 9:00–12:00 h

- Identify issues in estimation
- Fix issues in estimation
- How to report results

Postprocessing

27 Nov, 13:00–16:00 h

- Visualisation
- Posterior prediction
- Iterative model building

Pick from the four sessions as it fits your schedule!
